

Clinical Laboratory Assistant/Phlebotomy Program

Tuition Includes:

- Instruction: lecture, hands-on labs, and 3 weeks of clinical experience
- Books and materials
- Needle Stick insurance

Not Included:

- **NM Dept. of Health required background screening/fingerprinting**
 - o Cost \$73.30
 - o Required by NM DOH for students to work with patients in the clinical setting.
 - o Students will be given information on how to complete this once class starts.
- **Current Immunizations**
 - o Costs will vary by student.
 - o List of required Immunizations along with what you currently have will be reviewed by instructor once class starts.
- **Proper attire/scrubs**
 - o Instructor will cover during first day of class.
- **ASCP Exam for National Certification, Phlebotomy Technician, PBT(ASCP) Route 2**
<https://www.ascp.org/content/board-of-certification/get-credentialed>
 - o Cost: \$135.00 - Optional, not required
 - o Test is not required to work in the state of NM as a certified CLA/Phlebotomist.
 - One has to have graduated from a reputable certification program that includes 100/+ hours in a clinical setting, which is what the UNMCE program provides.
 - o Test can be taken after graduation from the UNMCE program. UNMCE provides the Qualification Route 2 form and letter to you after graduation.
 - o Highly recommended, it is the “gold standard” for certifications and highly beneficial to one’s career. Students will be prepared to take this exam after finishing the UNMCE course.
