“Make it Happen” is our kick off to a great new way to become a personal trainer or fitness coach.

Are you a GOAL GETTER?

Get the foundations of fitness with our online course offered through Ed2Go Careers with the National Academy of Sports Medicine (NASM) to reach your first level goal. Prepare for the NASM certification exam over the next six months for your second level goal.

Let’s get into HIGH GEAR to get the tools and skills to work with clients to create effective plans or properly evaluate different kinds of people seeking your guidance. This goal can be achieved in four fast paced days at the Institute of Community Wellness and Athletics for in-class instruction.

NASM Certified Personal Trainer and Exam Preparation (Voucher Included)

Want to become a leading fitness industry professional and start an exciting career helping others achieve their fitness goals? The NASM Certified Personal Trainer and Exam Preparation program is a unique online training program that helps prepare for the NASM exam, to earn one of the most respected and in-demand certifications in the health and fitness industry. You will use a robust set of available resources (videos, presentations, readings, quizzes, activities) to master health and fitness topics, including nutrition, program design, human movement science, fitness assessments, among others.

This program includes exam preparation, all study materials, as well as the certification exam fee. The NCCA accredited NASM CPT Personal Trainer Exam is taken at a local testing center (PSI), and you can schedule your exam date after completion of the program.

Accelerated Fitness Trainer Clinic
You are well on your way as a fitness or sports professional. With your CPT credential or as you prepare for certification by completing a current personal trainer course, learn the direct client skills to bring your training in line with application. Your prior knowledge of human movement science, will focus these hands-on skills in a 4-day clinic with practical experience necessary to perform assessments, create individualized programs including nutrition, and behavior modification and progress your clients to their goals. New skills can be applied quickly to build clientele and increase revenue.
