These courses are offered in partnership with the West Virginia University Forensic Science Academy for Professionals and were developed to meet the diverse needs and requests of the forensic science community.

NEW this year, earn your Certificate in Topics in Forensic Science: From Crime Scene to Courtroom. This series of courses is specifically grouped together to provide an overview of forensic science disciplines and how practitioners within the justice system interact from the crime scene through the laboratory and into the courtroom. This program can serve as an introduction to topics in forensic science for non-practitioners or as a review for those already in the field.
