The UNM Continuing Education Youth Program is a community dedicated to engaging children and adolescents in interesting and challenging classes and camps taught by expert instructors that encourage creativity, develop talents and skills, and support the overall health of each participant.

Classes that interest them!
Classes for ages 4-17 are created specifically by age group so children’s development and interests are nurtured appropriately. We offer teen classes that include job skill training and career exploration opportunities. Partnerships with UNM departments, local educational businesses, and other universities allow us to offer classes in a variety of state of the art settings in addition to our facilities at Continuing Education.

Sewing & Clothing Construction for Teens Online (ages 14-17)
If your teen has always wanted to learn to sew or become a fashion designer, this is the perfect place for them to begin with online, self-paced video classes taught by Master Tailor & Designer, Eric W. Stiles, who has more than 35 years of professional experience including Head-Tailor roles at Giorgio Armani, Polo Ralph Lauren, and others.
